01. What is Google Assistant

Google Assistant

Google Home

Google Home Hub

Chromecast

Smart Home Connections – Google Assistant

Google Home speakers enable users to speak voice commands to interact with services through Google's intelligent personal assistant called Google Assistant. A large number of services, both in-house and third-party, are integrated, allowing users to listen to music, control playback of videos or photos, or receive news updates entirely by voice.

This integration allows user to use voice to bring up Imou cameras on a chromecast enabled TV.

works with the
Google Assistant

Recommended Combination

To get start, you would need a Google Home speaker and a display.

Chromecast + TV + Google Home

Google Home Hub

02. How to Enable Imou Service

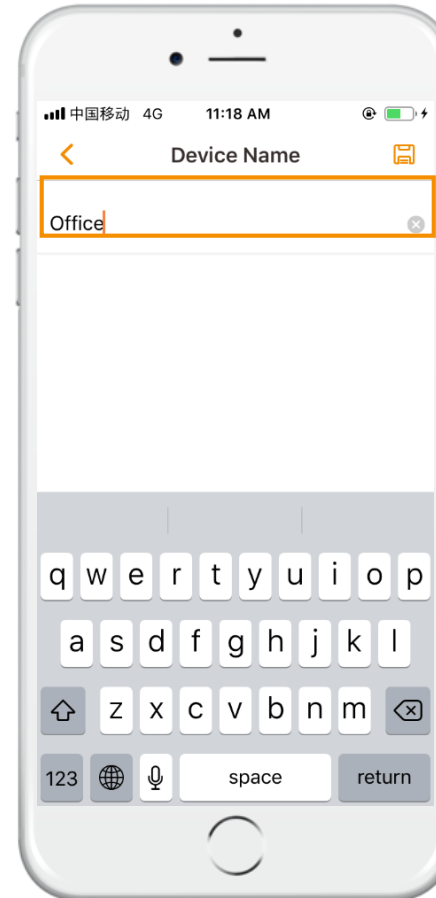

Name Your Camera

In the Imou app, you can create a simple name for your camera, for example, **Office**, **Living Room**, etc.

Note: Please make sure the Video Encryption is not enabled.

[* Click here for instructional video](#)

Google Home App

Set up Your Google Home

Download and install the Google Home app, linked your Google account and set up your Google Home device*.

Google Home app

For iOS

For Android

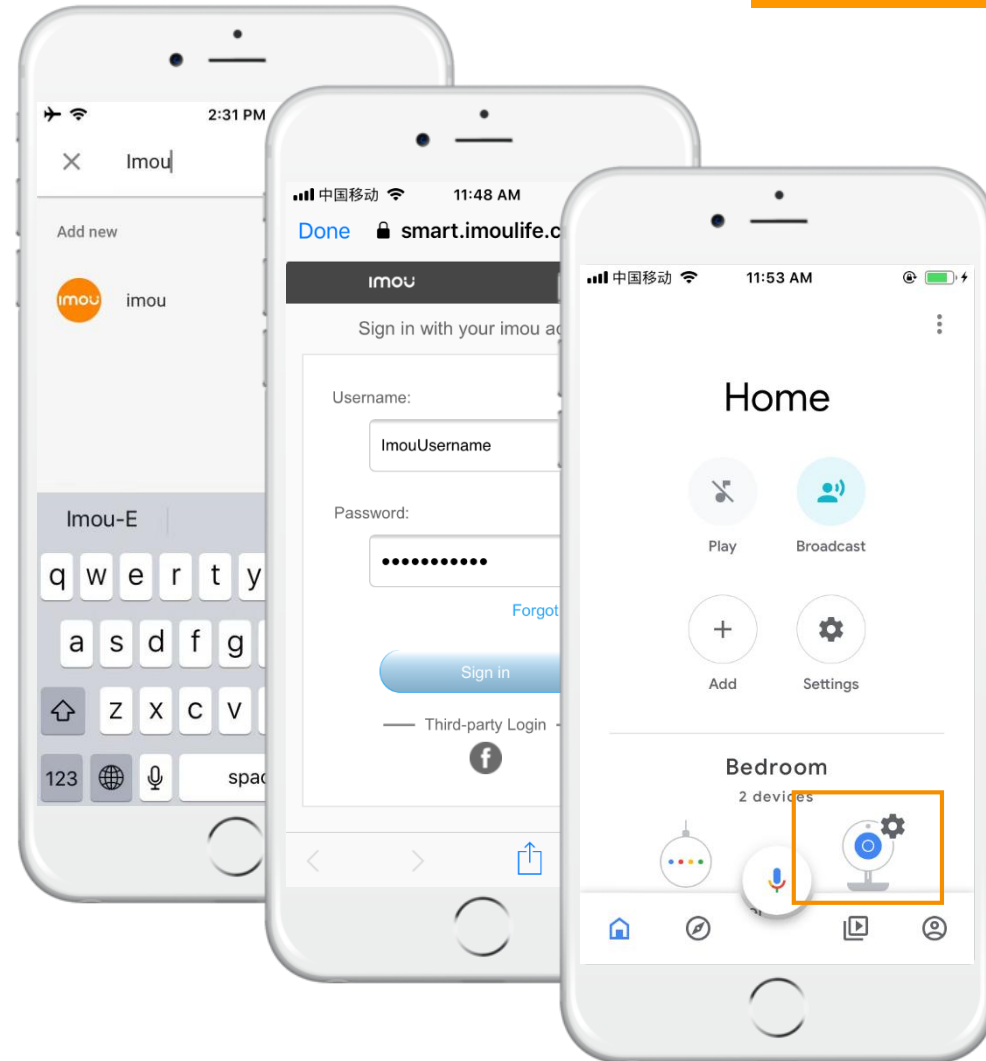

* [More about how to set up](#)

Link Imou Smart Service

From the Google Home app, go to home menu and tap **Add** , choose **Set up device**  **> Works with Google**

Find and link **Imou** smart home service, login with your Imou account.

Keep continuing through the setup assistance to setup your Imou device.

03. Things to Try

Voice Commands to Free Your Hands

Once connected, tell the Google Assistant *

“Hey Google, show me the **Office camera**”

“Hey Google, show me the **Office camera on Bedroom TV**”

“Hey Google, what is on my **Office camera**?”

“Hey Google, **stop**”

* Check attached Excel Form for more information
