6. Click Yes.

7. Click **Finish.** The software installation is successfully completed.

8. Restart your computer to activate the new device.

## Setup Diagnostics

To verify whether your USB V.90 Fax/Modem exists in your computer and is enabled, go to My Computer→Control Panel®System. Click the Device Manager tab. If the Modem and Network adapters are found, it means that your Network device is well installed. If not, consult your computer dealer for technical support.

## UNINSTALLATION

To uninstall the device driver of USB V.90 Fax/Modem, perform the following steps.

1. Go to My Computer→Control Panel. Doubleclick Add/Remove Programs.

- 2. Select Uninstall USB V.90 FAX MODEM. Click the Add/Remove button. And click OK.
- 3. For Windows 2000, the following dialog box will appear after you double-click the Add/Remove Programs.

4. Follow the on-screen instructions to finish.
