TF Card (For TF Card ip camera only)

1. Install TF card

For primary use, firstly please install TF card, one TF card, to keep normal function,

TF card is required with minimum 4G and maximum 32G.

Note:The device will power off automatically when plug or pull out the TF memory card.

. TF Car	d Info	De	viceC	fg				HDD Infe		
Device cor	nfig									8
Setting -	> Info	-> HDI) Infa							
SATA		23				8				
Index	Type		Cap	aci ty	r .		Left	Capacity	Status	
All 2-1	- Read,	/Write		3 GB 3 GB			0.00 0.00	50.02	Normal	

Display the hard disk state: type, overall capability, residual capability, the recording time and so on.

Tips : • means that the hard disk is normal. X means that the hard disk is broken-down.- means that there is no hard disk. If the user need to change the damaged hard disk, you must shut down the Camera and take up all the damaged hard disks, then install a new one.

Record setting

Device should install TF card to realize this function.
